Offsite Transportation and Treatment/Disposal Services

Turkey Brook Site

Turkey Brook Site

Oakville, CT

October 29, 2013

Exhibit A Scope of Work

Guardian Environmental Services Company, Inc (GES) has been tasked by the United States Environmental Protection Agency (EPA) to conduct an emergency removal action at the Turkey Brook Site located at 20 McLennan Drive in Oakville, CT. Attachment A-1 provides a site location map. The Scope of Work required under this RFP or subcontract is for the subcontractor(s) to provide all labor, equipment, materials, supplies, and permits necessary to provide transportation and disposal services as described below in Section A.2.1 from the EPA, Region 1, Turkey Brook Site. A description of the scope of work to be performed is provided below in Section A.1.

A.1 Site Information

Site Name: Turkey Brook

Street Address: 20 McLennan Drive, Oakville, CT 06779

Situation: GES is currently performing site cleanup activities at a former plating facility as the prime contractor for EPA Region 1 at the Turkey Brook Site in Berlin, CT. The proposed vendor is to transportation and off-site disposal of the material listed below to at a CERCLA acceptable facility. The facility and transporter must have all applicable permits, licenses, etc. to perform this work. The vendor will provide a truck with a lift gate because there is no loading dock at this site.

A.2 Scope of Work

A.2.1 Description

Item	Description	EPA Hazardous Waste Codes	Approximate Quantity	Unit Measure
A	Waste Oil	None	0-2	55- Gal DM
B	Absorbents and PPE from cleanup of oil spill	None	0-25	55- Gal DM
C	Transportation of Line Items A & B	NA	0-1	Load
D	Demurrage – Allow 2 free hours load time	NA	0-1	Hours

Line Item A – is for the disposal of oil from a spill cleanup.

Sample: Waste Oil

Line Item B – is for the disposal of absorbents and PPE form the cleanup of the oil spill.

Sample: None.

Line Item C – is for the transportation of Line Items A & B. All drivers and vehicles must have legal permits and all applicable licenses to haul this material.

Exhibit A
Scope of Work

Line Item D – In the event that demurrage is incurred during the loading of this waste. GES requires subcontractor to allow two (2) free hours of load time per truck. Award of this RFP will not be based on this line item, but the unit rate and extended rate will be included in the not-to-exceed value of the awarded subcontract.

A.3 Schedule

GES anticipates wastewater removal to begin the week of Wednesday November 13, 2013. All waste must be off site no later than November 20 18, 2013. See Section A.5, Liquidated Damages, below for penalties associated with not meeting the deadlines outlined in this section.

The generator of this waste material is:

U.S. EPA Region I
5 Post Office Square
Mail Code: OSR
Boston, MA 02109-3912
Contact: Mia Pasquerella
EPA CERCLIS ID #: None

**Exhibit A
Scope of Work**

Transporter and Treatment, Storage, and/or Disposal Facility(ies) (TSDF) will take place at the following (use additional pages if necessary):

Facility Name	Facility Address	Facility EPA ID #	Line Item	Method of Disposal/Treatment

Transporter Name	Transporter EPA ID #

GES will not pay for any Treatment, Storage, and/or Disposal which takes place at a facility not listed by the vendor herein as one of the disposal facilities that will be used. If a different disposal facility must be used, a written Change Order must be executed by GES and the subcontractor prior to its use in order for the subcontractor to be paid.

Scope of Work**

A.4 General Requirements

All EPA and DOT documentation, manifesting, marking, and permitting requirements, including but not limited to waste profiles, manifests, certifications of disposal, hazardous and solid waste transporter permits, decals, labels, and DOT placards are the responsibility of the subcontractor.

A representative from the subcontractor must be available, by telephone, during loading operations to coordinate the loading and offsite transportation activities with the GES Transportation and Disposal (T&D) Coordinator. The subcontractor will be required to adhere to the *Service Contract Rates* as outlined in Exhibit E of the subcontract agreement for all personnel working on this project.

All transportation scheduling and operations are to be coordinated with the GES T&D Coordinator, to limit potential demurrage time during loading operations and to minimize interference with site operations.

The original certificates of receipt (signed manifests) by the disposal facility must be returned to EPA within seven (7) business days from the shipping date.

The period of performance for this Subcontract is anticipated to be November 11, 2013 through November 20, 2013. The GES T&D Coordinator will coordinate the exact date(s) with the selected Subcontractor(s).

 A-2 Analytical Results

B.1 Bidder's Price

Pricing for Statement of Work described in Exhibit A. The price must be given in the format specified in this RFP. Any other format may cause your bid to be deemed non-responsive (pursuant to FAR 14.301). The description for each line item is provided in Section A.2 of the Statement of Work (see Exhibit A).

Item	Description	EPA Hazardous Waste Code	Approximate Quantity	Unit Measure	Unit Price	Extended Price*
A	Waste Oil	None	0-2	55- Gal DM		
B	Absorbents and PPE from cleanup of oil spill	None	0-25	55- Gal DM		
C	Transportation of Line Items A & B	NA	0-1	Load		
D	Demurrage – Allow 2 free hours load time	NA	0-1	Hours		
GRAND TOTAL					\$	
Note: All prices should be shown in U.S. dollars and will remain valid for ninety (90) days from the date of this offer. Pricing must include all fees, fuel surcharges, costs of analysis, or any other costs, which may be involved in the normal course of transporting this waste to the designated facility, for accepting this type of waste into the facility, and for performing the treatment and disposal of this waste.						

** Please extend your bid to the highest quantity*

D.2 Bidder's Signature

This signature means that the bidder has read and understands this request for proposal and is willing to execute a GES subcontracting agreement (site where subcontract is enclosed) (enclosed) without changes. **The signatory must have the authority to legally bind the company submitting a proposal.** The signature on this document represents that all submitted proposal information is accurate and truthful. Submitted pricing must be all inclusive, in the format illustrated within this proposal. GES will not pay any costs outside of the prices submitted within this proposal.
